## **Admissions Process**

### **Section I. Introduction: Phlebotomy**

#### **Phlebotomy Technician Program**

Phlebotomists play an important role on the medical laboratory team by collecting specimens for laboratory testing. With experience, a phlebotomist can be promoted to higher level positions such as phlebotomy supervisor or laboratory assistant.

The U.S. Department of Labor predicts that the market for Phlebotomists will increase 10-20% over the next ten years.

The Phlebotomy program consists of 120 hours in the classroom learning theory and laboratory procedures, CPR training, plus 120-160 clinical hours in a medical laboratory. The program operates Monday & Wednesday evenings from 6:00-9:30 p.m. CPR training is held on a Saturday and the mandatory clinical is Monday through Friday full-time day 40 hours per week for a minimum of three weeks. Part-time clinical are not available.

Upon successful completion of the program, the student may sit for the Phlebotomy Technician exam given by the American Society of Clinical Pathology, ASCP.

### **Section II. Equal Education Opportunity:**

Enforcement of this law advances efforts to ensure that all students can attend school in a safe, supportive environment that is conducive to serious learning. This law makes it clear that all aspects of public school education must be fully open and available to members of both sexes and minority groups. No school may exclude a student from any course, activity, service or resource available in that public school on account of race, color, sex, religion, national origin or sexual orientation of such student.
