

Practical Nurse Readmission Policy

The Readmission Policy for the Practical Nurse Program is established to provide a fair and consistent process for students seeking readmission after withdrawal or failure. This policy aims to support student success while maintaining program integrity and standards.

1. Reapplication Process for Students Who Withdrew from First-Semester Courses:

- Students returning after withdrawing or failing first-semester courses must reapply through the STI Practical Nurse Admission process, adhering to the current Admission Policy and catalog requirements.

2. Reapplication Process for Students Who Withdrew from Second-Semester Courses:

- Students seeking readmission after withdrawing or failing second-semester courses must:
 - Complete a readmission form, stating their intent to return.
 - Achieve a minimum score of 75% on a Fundamentals competency test, with only one attempt permitted.
 - Returning students must participate in a clinical skills review. Students will meet with the Program Director to discuss and participate in an individualized remediation plan.

3. Limitations and Conditions:

- Acceptance will be contingent upon available space in the desired term.
- Students are eligible for readmission to the Practical Nurse program only once.
- Students must re-enter the program within two years of their last date of attendance.
- Students may not reapply if they were dismissed or withdrawn due to clinically unsafe practices/behavior or violations of the STI Code of Conduct.
- Students must have a zero balance in their student account in order to reapply
